

**HAMLET**

Putting warmth at the heart of the home

In 1966, a family started an engineering business in Dorset with the ideals of creating affordable, enjoyable and lasting products for British homes. Over 50 years later these values are still at the heart of our stoves today.

Choose a stove that is perfectly designed for the British home and your way of life.

Feel the warmth

Output

The most important consideration when purchasing a stove is the required output to heat the room it will be placed within. As a very rough guide, measure the room and multiply width x depth x height (in metres), and then divide this by 14. This will provide the average heating requirements for the room in kilowatts. e.g. For a room measuring 4.9m x 4.9m x 2.4m, multiply these together and then divide by 14. This makes a 4.1kW output.

Freestanding or Inset

Our freestanding stoves offer the most versatile heating solution, perfect for all spaces. Alternatively, you could opt for an inset stove model, designed to replace an open fire utilising an existing fireplace.

Fuel

All of our Hamlet stoves are multi fuel, giving you the freedom to choose between burning solid fuel or wood. If you live in one of the UK's Smoke Control Areas, take a look at our Solution 5 Widescreen and Solution 5 SC stoves.

Solution

Model shown: Solution 5 Widescreen

Highly efficient, yet simply designed, our Solution range of stoves allow you to generate more heat using less fuel.

With a gently curved steel body, large fire viewing glass and concealed hinges, the Solution stove is a stunning addition to any room and is sure to keep your home warm and cosy.

Features

- Burns wood or solid fuel
- Pre-stressed curved body for superior strength
- Preheated airwash system for clean glass
- Non-smoker paint
- 10 year guarantee on the stove body
- Secondary burn for higher efficiency
- Externally controlled riddling grate
- Top or rear flue outlet

Optional extras:

Add-in boiler / Floor fixing kit / Safety handle

Solution 5 | 4.9kW **A**

Solution 5 Widescreen
4.9kW **A**

Solution 7 | 6.1kW **A**

Solution 9 | 8.8kW **A**

Solution 11 | 11kW **A**

Solution Inset

Featuring all the perks of our Solution Freestanding models, but fitting perfectly into a standard British fireplace, the Solution Inset is a great choice. The Inset 5 model even fits neatly around the chair brick minimising the need for alterations.

Features

- Burns wood or solid fuel
- Preheated airwash system for clean glass
- Externally controlled riddling grate
- No need to remove the chair brick (Inset 5 model)
- Radiant and convected heat

Solution Inset 5
4.8kW **A**

Solution Inset 7
7.1kW **A**

Model shown: Solution Inset 5

Optional extras: Standard flue gather / Long reach flue gather / Safety handle / 5-6' vertical flue adapter

Solution 5 SC

Developed to meet the demand for stoves in the UK's Smoke Control Areas, the Solution 5 SC enables you to burn wood or smokeless solid fuel. It's clean styling and easy operation make it a very practical option for urban living.

Features

- Burns wood or smokeless fuel (with optional kit)
- Preheated airwash system for clean glass
- Non-smoker paint
- Secondary burn for higher efficiency
- Externally controlled riddling grate
- Top or rear flue fitting
- Direct air supply compatible

Solution 5 SC S3 | 4.9kW **A**

Optional extras:
Floor fixing kit / Safety handle / Heat shield / Multi fuel kit

Model shown: Hardy 5

The smallest of the Hamlet range, the Hardy has been designed with small living areas in mind. Whilst compact in size, these stoves still offer all the heat and cosiness needed to stay warm through the winter months. A reliable and controllable heating supply combined with a simple design.

Features

- Burns wood or solid fuel
- Preheated airwash for clean glass
- Non-smoker paint
- Secondary burn for higher efficiency
- Externally controlled riddling grate
- Top or rear flue fitting
